

NRSWA (Streetworks) City & Guilds 6156

The New Roads & Streetworks Act (NRSWA) is a requirement for people who work within the highway. It is split into two sections, operator & supervisor. The two sections are independent of each other. E.g. a supervisor is not permitted to work as an operator and visa versa. Each section is made up of individual units, a candidate can sit whichever units they wish, however to obtain the SWQR card they must have completed the first 3 units as a minimum. Any candidate who attends this course should have a limited knowledge of working within the highway and be of reasonable physical fitness. There is an element of classroom work to the operators units which requires a basic level of literacy and numeracy. For supervisors there is a requirement for the candidate to observe operations and write a report to that effect. Therefore a reasonable level of literacy and numeracy is required.

City & Guilds 6156 (Streetworks) NRSWA

Operator Units

Units 1-6 (4 Days)

- 01 Location and avoidance of underground apparatus
- 02 Signing, lighting and guarding
- 03 Excavation in the highway
- 04 Reinstatement and compaction of backfill materials
